

Our Services

At California Food Works, we seek to provide the personal touch and sophisticated elegance of a personal chef to all of our events. We offer our clients many services that allow them the convenience of a private chef to suit the needs of their event:

Customized Menu

Whether you hand-pick items from our chefs' menus or have them design custom items for your clients, California Food Works will provide a custom menu to suit your clients' preferences and needs.

Culinary Artisan Style

Along with providing the highest quality cuisine, our chefs also have experience in the aesthetics of food style, and bring this added elegance to all of our events.

Streamlined Event Coordination

Our chefs have familiarity working for and with one another as well as our partner Moore Cordial's staff, which allows us to provide a seamless flow of events in preparation, execution, and disassembly.

Overflow Staffing

We know that events don't always go exactly as planned and can require more or different staff than originally expected. Because of their diversity, California Food Works chefs blend well into a team environment and can help tie up the loose ends or meet unexpected staffing needs.
