RE: Sibyl Wong / Recommendation Letter

TO WHOM IT MAY CONCERN:

It is a pleasure to write a letter of recommendation and support for Sibyl Wong. I have known Sibyl for 2 years. I taught Sibyl for one semester in my architectural design studio at Otis College of Art and Design in the fall of 2004. In the summer of 2004 Sibyl worked full time in my architectural office, Studio RCL.

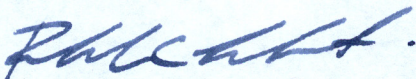

In all of my architectural design studio classes, I require students to master fundamental design skills and I challenge them to think conceptually, creatively, and functionally. I encourage them to participate actively in class discussions, to complete several design assignments and to express themselves clearly and cogently in their work. Sibyl excelled in all of these areas and produced consistently outstanding work and an impressive final design project.

As an employee, Sibyl continued to impress me. I have a small architectural firm and it is important that employees are able to work both independently and collectively. Sibyl proved herself to be highly competent in both regards. She takes direction effectively and works very hard on every project she is given; she also works well with other employees and is a great team player.

In my office Sibyl produced several beautiful renderings and models for clients. Her advanced skills in computer rendering and modeling and her meticulous attention to detail have been highly beneficial to the projects she has worked on. In addition, Sibyl participated in client meetings and was responsible for archiving all of the office photos of completed projects. Sibyl is quick to pick up any new skills required for a project. She proved herself to be a tremendous asset to my office.

On a more personal note, Sibyl is an extremely personable and likeable person. She is intelligent, resourceful, full of humor and good will, and very easy to get along with. Quite simply, Sibyl would be a welcome addition to any architectural design firm. I strongly recommend Sibyl without reservation.

Sincerely,

Richard Cutts Lundquist, Architect
